

Praise...

- God is building the Open Toronto Initiative team. Several potential team members have contacted ABWE about serving in Toronto.
- Karen's 94-year-old father recovered well from a serious stroke he suffered 3 weeks ago. We have been helping him get moved into an assisted living facility as he can no longer drive or manage on his own.

Pray...

- George has prostate cancer requiring either radiation therapy or surgical removal of the prostate. After consideration and prayer, we are choosing surgery and will see the surgeon in September.
- We continue to work in preparation for the day when the Open Toronto Initiative team hits the ground.
- May God continue to send workers to be part of the OTI team.

We are always grateful for your prayers, [support](#) and encouragement,
George and Karen King
